Dolphin® 7900 Magnetic Stripe Reader (MSR) Attachment

Hand Held Products is pleased to announce the availability of the Dolphin 7900 Mag Stripe Reader (MSR) attachment accessory. The MSR attaches to the Dolphin 7900 terminal and can be used to read magnetic stripe information encoded on credit cards, driver's license, and personal information cards.

The MSR extends the utility and versatility of the Dolphin 7900 by allowing mobile enterprises to better serve their customers in the field at the point of customer contact. Possible applications include processing credit card payments during route accounting and parcel delivery, validating a person's identity information on a driver's license or personal information card, and performing on-the-floor sale transactions and credit authorizations at busy retail establishments.

Features

- Three-track head reads the majority of magnetic stripe cards including credit cards, driver's licenses, and personal identification cards
- Bi-directional card reading
- Can be snap-fitted to the terminal for temporary use or screw mounted for permanent use applications
- Contoured housing and pass-through communication and power connector facilitate use with Dolphin HomeBase™, Net Base, ChargeBase, and charging/communication cables while attached to terminal
- Durable construction for use in robust mobile applications
- Military-grade 100,000 duty cycle connectors ensure years of reliable use
- One year warranty

Pricing and Availability

The Dolphin 7900 MSR is in stock and available for order - www.handheld-config.com.
