

Dolphin® 7900 Series ChargeBase Four-Slot Charging Cradle

Features

Four Terminal Capacity – Reduces peripheral hardware costs.

Intelligent Battery Charging – Leave terminals in the base without damaging terminals, their battery packs, or the base.

Convenient Storage – Can hold up to four terminals.

Dock and Charging LEDs

Desk or Wall Mountable – Ergonomic form factor allows easy installation in various enterprise environments.

The Dolphin ChargeBase is a four-slot charging cradle for Dolphin 7900 series mobile computers that charges the main Li-ion battery pack of each terminal in less than four hours.

Each slot charges independently of the other slots. When a full charge is complete, charging automatically switches to a trickle charge, thus preserving and ensuring a full battery charge.

The open-slot design allows easy access to docked terminals while holding each securely. The ergonomic form factor ensures that the unit can be easily mounted to a wall or desktop.

Two LED indicators on the front of each slot enable you to monitor each Dolphin terminal. DOCK LEDs indicate when terminals are properly seated. Charge LEDs indicate charging.

To learn how the Dolphin ChargeBase can work for you, contact us at any of the locations listed on the back or visit us at www.handheld.com.

Dolphin 7900 ChargeBase Specifications

Structural

Dimensions:	3.5" high X 5" wide X 20" deep (8.9 X 12.7 X 50.8 cm)
Weight:	42 oz. (1.19 kg.)
Material:	Case: Polycarbonate ABS blend Color: Gray
Desktop Mounting:	Use DIN rail slide for desktop or rail mount
Wall Mount Kit:	Available separately

Environmental

Operating Temperature:	32° to 104°F (0° to 40°C)
Storage Temperature:	-4° to 158°F (-20° to 70°C)
Electrical Static Discharge:	10 KVA immunity on all surfaces
Humidity:	90% relative humidity (non-condensing)

Power Supply

Input (Universal):	115-230 Volts, 2.0 A, 50-60Hz
Output:	9.5 Volts DC, 8.0 A, 76 W Max.
Input Connection:	3 Position IEC-320-C14

Charging

Standard Charge:	Completes 100% charge in four hours or less Independent charging of the main battery in each terminal
CHARGE LED:	Green Charging in progress
DOCK LED:	Green Dolphin terminal is properly seated

Agency Approvals

Power Supply:	UL listed, TUV licensed Power Supply compliant to FCC part 15 Class B
Charging:	CE Marking (EMC)
Fire Retardant:	UL 94-VO
