

# Software

Hand Held Products offers a number of software utility tools specifically designed to make programming easier. These software tools take advantage of our products' built-in flash memory technology. All the software packages listed below are **available free of charge** from the Hand Held Products' website ([www.handheld.com](http://www.handheld.com)).

## Quick\*Load

Windows®-based software tool that allows the user to manage the flash memory in decoded- out SCANTEAM® products. Use for upload/download of firmware and configuration files, cloning, communication parameter configuration, and data editing and formatting.

*Operating Environments:* Windows 3.1, Windows 95

*Products Supported:*      ST2000      ST2010      ST3215      ST3700      ST5700  
                                 ST5750      ST8300      ST8310      ST8400

## Quick\*View

32-bit Windows® application program designed to display decoded symbol messages and captured images. Also can be used to upgrade firmware.

*Operating Environments:* Windows 95, Windows NT

*Products Supported:*            IT4400      IT4700      IT4410      IT4710

## Visual Menu™

Windows® based software tool that assists the user in programming Hand Held Products' most complex data collection products. Visual Menu features a dynamic graphical user interface that only displays parameters appropriate for the connected device, making it easy to download firmware and configuration files, change, save and print menu parameters, or generate bar codes for cloning.

*Operating Environment:* Windows 95 & 98, Windows NT 4.0

*Products Supported:*      IT3800      IT4400      IT4410      IT4700      IT4710  
                                 ST2070      ST3470      ST3900      ST5770

## OPOS Scanner Driver

OLE-POS (OPOS) is an object linking and embedding scheme developed for use with POS devices. This driver allows developers to run applications without modification across a complete range of industry standard POS terminals and peripherals.

*Operating Environments:* Windows 95, Windows NT

*Products Supported:* IT3800  
IT4400/4400OCR  
IT4700/4700OCR  
ST3000PDF  
ST5700A, HD, & ALR  
ST5750 ST6180  
VT3060/3080
