

## Dolphin® Demos

There are six Demos, each designed to demonstrate the many advanced features of Dolphin devices. Demos help you use Dolphin devices the way they are used in various application settings without having to install additional third-party software. For example, there is a Dolphin Demo for imaging, bar code scanning, printing to a Bluetooth™ printer, and signature capture.

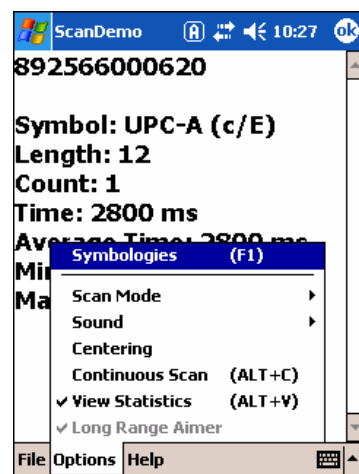

Access Dolphin Demos by tapping **Start** > **Demos** on the device.

### Scan Demo

#### Scans and Decodes Bar Codes

- Decodes symbologies supported by Hand Held Products
- Supports scan engines from Hand Held Products
- Provides bar code statistics and logging capabilities

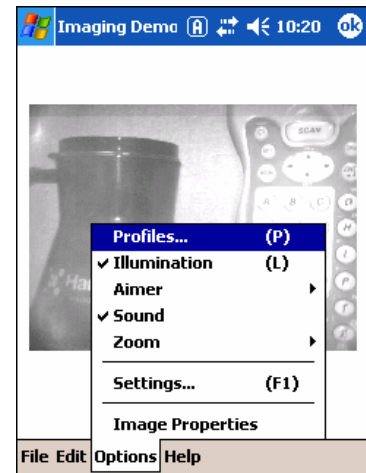

## Imaging Demo

### *Captures, Edits, and Processes Images*

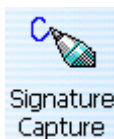

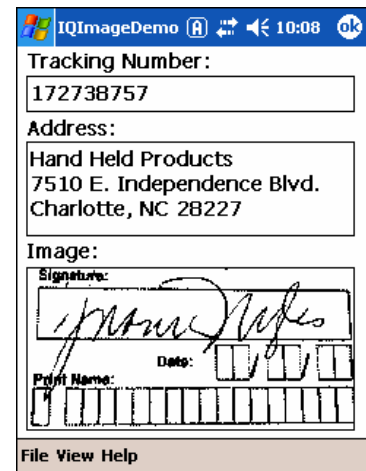

- Contains image capture profiles for common images
- Creates custom profiles
- Prints images to an IrDA printer

## IQ Imaging Demo

### *Demonstrates IQ Imaging Functionality*

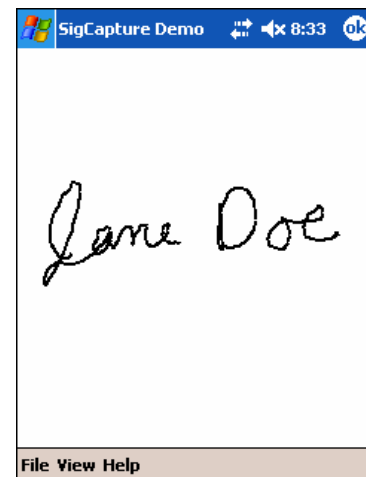

- Decodes data embedded in an image into form fields
- Auto-rotates images
- Auto-cropping feature for smaller file size

## Signature Capture Demo

### *Captures Signatures on the Touch Screen*

- Saves signature images in multiple file formats
- Adjusts pen widths before and after a signature is captured

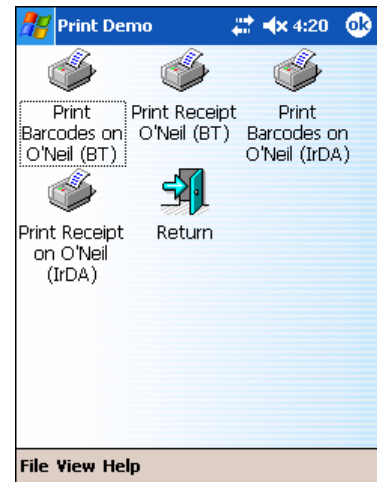

Print Demo **Print Demo**

***Prints Sample Files to IrDA and Bluetooth Printers***

- Prints sample receipt on an IrDA or Bluetooth printer
- Prints sample bar code on an IrDA or Bluetooth printer

## Demos Specifications

---

### Compatible Mobile Computers

All configurations of the:

- Dolphin 9500 Series
- Dolphin 7900 Series

### Software Requirements

- Microsoft® Windows Mobile™ 2003 Second Edition Software for Pocket PCs

### Upgrades

Dolphin Demos are updated regularly and the latest version can be downloaded to the PC from the web site: [www.handheld.com](http://www.handheld.com).
